Journal club presentation On

“Importance of Hand washing at hospital and home setting”

A journal club presentation was organized on importance of hand washing at hospital and home setting on 23-04-2016.

The presentation was presided over by Mr. Lazar Mathew, research advisor, Dr.S. Anuradha, principal, faculty and students.

Ms. B. Mary Pavani gave a detailed and attentive presentation on Importance of hand washing at hospital and home setting. Ms. Pavani explained the diseases being attacked by the under five children due to improper hand washing techniques with statistics. She also elaborated the need for celebrating world hand washing day on October 15 in order to create an awareness among general public.

Ms. Pavani also gave a live demonstration of 11 step hand washing technique.

Mr. Lazar Mathew appreciated the presenter and suggested the principal to conduct class test to the students on presentations. |

Principal Dr.S. Anuradha insisted the students to practice hand washing technique strictly at hospital and home setting in order to protect themselves from falling illness.

Ms. P. G. Rekha,lecturer proposed vote of thanks by expressing her sincere gratitude to Mr.Lazar Mathew,and to Dr.S.Anuradha for their continuous support and guidance in conducting such presentations.
