

Report on journal club presentation

A Journal club presentation on “Geriatric care” was held on 17.6.2016 At Dasari Auditorium.

Mrs.T.Nazma sanjeed ,Assoc.professor disclosed the topic by enumerating the reasons for increased number of old age people and stastical ratio existing globally and at country level. she also discussed in detail about the changes which advances with age such as dementia, delirium, Alzheimer’s disease etc, and explained the care to be taken to avoid complications.

She concluded the topic by coding simple strategies to keep old age people healthy and happy such as dining with them, visiting them often, taking them for an outing, encouraging them to use simple communication networks etc.

At last, Dr.T.Lazar Mathew, Research advisor, SVET advised all the faculty and students to spend some quality time with them to talk and to understand their problems
